

Environmental and Sustainability Policy

QACO Pty Ltd is a leading responsive maintenance company operating in the Greater Sydney Area and across NSW.

Our core activity involves delivering general maintenance services for our clients.

QACO management is committed to the development, implementation, execution, and maintenance of its environmental procedures. This commitment provides for a high-quality environment within the building and maintenance industry.

Our aim is to meet the expectations of our clients and Environmental Authorities.

QACO management affirms its commitment to applying sustainable development principles to all facets of the building and maintenance activity to minimizing the impact on, and pollution of, the environment during the construction process.

Our objectives are to:

- Identify and manage risks for work activities to minimize impacts on the environment.
- Ensure environmental awareness and encourage respect for the environment by all employees, workers, and suppliers.

To achieve these objectives, QACO management implements, maintains, and continually improves its Environmental Management System in accordance with ISO14001:2015.

The system is applied to all projects or works we undertake. We also, employ socially acceptable and cost-effective strategies to mitigate threats to the environment and provide protection to clients, the public, and the company's employees.

We take an active interest in the prevention of pollution (noise, air, and ground) through the adoption of processes, practices, materials, equipment, and products that avoid, reduce, or control pollution. All employees, workers, and related stakeholders are made aware of these responsibilities and are educated about the practical application of our Environmental Policy.

This signed statement of policy will be displayed at all relevant work locations.
